Special Event

A very special program is available tomorrow afternoon and evening at the Red Feather Lakes Elementary School free for everyone. The Soaring Eagle Ecology Center, RFL Elementary School and RFL Community Library proudly present:

Exploring the Wonders of Light: Sun, Stars and Beyond
A free afternoon and evening program for everyone

Saturday, July 23, 2011

Afternoon Program: 1-4 p.m.

CSU's Little Shop of Physics will kick off the afternoon program at 1 p.m. in the school gym followed by inter-active, fun stations throughout the afternoon. Award winning Poudre High School student, Jessica Constant, will demo her computer modeling project. Solar telescope (Northern CO Astronomy Society viewing outside, and solar bead making station for little ones.

Evening Program: 8:30 – 10:30 p.m.

The evening program will have observing stations for binoculars, telescope and constellation viewing. May bring chairs, blankets and flashlights, but flashlights must be covered with red cellophane provided at event site.

Place: Red Feather Lakes Elementary School and grounds

*Outside events (solar and night viewing) will be cancelled if there's inclement weather. All indoor events will go on in afternoon regardless of weather.

I'll keep you posted.

Jody
