

September 19, 2011

Our weather is definitely changing, the willows are beginning to take on a golden brown hue, and there are splashes of gold in the aspen leaves. We've had a couple nights below freezing, so Mother Nature is letting us know our summer season has come to an end. Fortunately, we now get to enjoy all the colors of autumn.

Depending on weather, staff hopes to keep the 6th Filing water system up until next Monday, September 26th, at which time it will be closed down. If the forecast is for a drop in temperatures that could impact the system lines and valves, it may be taken down sooner.

Condolences are offered to these Crystal Lakes families and friends who have recently lost loved ones:

- Barbara Groves on the passing of her father.
- Muriel Fleming and family on the passing of her husband Bob. A memorial service for Bob is planned for Thursday at 2:00 p.m. at Morning Star Church, 23628 CR 74E, in Red Feather Lakes.
- Carolyn St John and family on the passing of her husband Donald. The office has received a request that members are noticed with the following:
Open viewing today, Monday, September 19, 2011, from 12:00 noon to 4 p.m. at Bohlander Funeral Chapel in Fort Collins, 121 W. Olive; services Tuesday, 9-20-11, for Don will be held at 2:00 p.m. at the Church of Jesus Christ of Latter Day Saints, 600 E. Swallow, in Fort Collins.

Volunteers are needed to help the Greenbelt Management Committee with clean up following the mitigation project in Filing 13, Tract F (at the intersection of Osage Trail and Flathead Drive.) Work will begin at 9:00 a.m. Saturday, September 24th and Sunday September 25th. Trucks and trailers are needed to transport slash. Your help will be greatly appreciated.

I'll keep you posted,
Jody
