

Good morning --

After receiving more than two feet of snow (near three feet in some parts of the Association), the skies have cleared and it looks like we might be through with this storm. All that's left now is the clean up. Our staff have been plowing since the storm began and are working to open, clear and clean up roads. Please be aware that, with this amount of snow, the clean up will take several days. For your safety, we do not advise coming to the mountain this weekend unless necessary, but if you do come, a vehicle with four-wheel drive and/or chains is highly recommended.

New Owners' Orientation will be held in the Wapiti Room at 1:00 pm on Saturday, February 11th. This meeting is open to all property owners who are interested in community programs and events -- you need not be a new owner to attend.

Valentine's Day will be celebrated in the restaurant on Saturday, February 11th. For those interested, a steak and lobster special is available with prior reservation (call the restaurant at 970-881-2106). Dinner from the regular menu will also be served.

Stay warm and welcome back to winter!

The Office Staff
